

A group of four young adults, two men and two women, are gathered around a tablet. They are all smiling and looking at the screen. The man on the left is pointing at the tablet. The woman next to him is also pointing. The man on the right is holding the tablet. The woman next to him is looking at the screen. They are all wearing casual clothing. The background is a bright, modern interior with large windows.

BROWN CENTER CHALKBOARD

The pandemic has had devastating impacts on learning. What will it take to help students catch up?

Megan Kuhfeld, Jim Soland, Karyn Lewis, and Emily Morton · Thursday, March 3, 2022

BROWN CENTER CHALKBOARD

The WH's

Most worrisome problems the pandemic has caused for students

Student learning loss - behind schedule with their curriculum, and more than half reported students were not meeting the expected learning outcomes.

Student absenteeism and disengagement - persistently absent,” and missed 16 or more days – the benchmark of chronic absenteeism. Record numbers of students are missing attendance checks or not reporting in at all.

Blurring of parent and teacher roles - Under stressful conditions, parents have been expected to establish regular routines and take on the instructor role. [Teachers face new challenges](#) adapting to radically different, mostly unfamiliar tech-enabled teaching.

Mod 1 - Operations with Integers

Summary

This Course Pack has been designed to simplify the question selection process when building assignments for a modular-style course using the textbook Developmental Mathematics: A Modular Curriculum by Tussy, Gustafson, and Koenig. Each module contains three distinct assignments for each key concept.

- Learning Assignments: The goal of the Learning Assignment is to introduce the student to the material in a practice environment. Learning Assignments contain a mix of questions, including video questions, step-by-step questions, examples and vocabulary.
- Lab Assignments: Consists of a series of questions of increasing difficulty, each containing either a Master It tutorial or a Watch It video.
- Quiz Assignments: Acts a section test, with all learning tools disabled by default.

A Pretest Assignment exists for each module, and covers all concepts in the
